

# Cleaning recommendations for Mehler Technologies® products

## GENERAL INFORMATION

- Select cleaning interval according to the degree of contamination.
- Contaminations should be removed as soon as possible in order to prevent material damage.
- Do not clean material with tools which might damage surfaces (e.g. high-pressure cleaner). Instead, use a towel, sponge or a soft brush.
- Use the recommended cleaning agents only.
- Apply cleaning agent only to the coated surface and avoid contact with the fabric.
- Store textile surfaces in a clean and dry state only.

## CLEANING PROCESS

1. Lightly brush off loose dirt particles first, then rinse material with clear water.
2. Spray on recommended cleaning agent in the indicated concentration or apply with a clean towel.  
Dose the amount according to degree of contamination.
3. Allow cleaning agent to act for a short while (2-5 minutes) and wipe off with a towel.
4. Rinse off dirt and cleaning agent residues thoroughly with cold or lukewarm water to prevent material discolorations.
5. Store material only if it is clean and completely dry.

## RECOMMENDED CLEANING AGENTS

As a rule, never use any solvent-containing or strong-alkaline cleaning agents.

- **UNGAPON** from Max Bail  
→ Apply the cleaning agent either in concentrated form or diluted 1:1 with water
- **TentClean Green** from Apco  
→ Dilute cleaning agent 1:1 with water prior to use
- **Wet & Forget Outdoor Ready-to-Use** from Wet and Forget Ltd  
→ Dilute cleaning agent 1:5 with water
- **Planenreiniger 2** from WIEDS ECOCHEM AG  
→ Dilute cleaning agent with water in a ratio of 1:5 to 1:20
- **Mild Detergent** (max. 5% detergent solution)  
→ For products of the AIRTEX® and VALMEX® pacific ranges
- **Hand-wash liquid soap**

## INFORMATION

Mehler Technologies GmbH assumes no liability for the cleaning agents and their applications recommended here.

Internal tests of other cleaning agents can be made on request.

This cleaning recommendation relates solely to manual cleaning procedures done by hand. In addition, damage produced as a result of machine cleaning is excluded from any warranty.

The recommendations presented here exclusively serve the orientational purposes. When applying the above-listed cleaning agents, it is imperative to observe their respective instructions of use.
